HU Integrative Health Center SEKEM Community Female Health Screening Report

This report provides a comprehensive analysis of survey data from **313** respondents across **53** key topics. The following key findings have been identified:

Key Highlights (Selected Topics)

BMI: The leading choice was "*Overweight*" with **38.0%**.

Do you have any of the following medical conditions?: The leading choice was "*No diagnosis*" with **41.2%**.

How many cigarettes do you smoke on an average day?: A majority (**98.7%**) selected "*I do not smoke* ".

How often do you eat vegetables per week?: The leading choice was "*Daily*" with **46.6%**.

How often do you eat fruits per week?: The leading choice was "*Several times a week*" with **41.9%**.

At what age did you have your first period?: Opinions were split between "*14*" (25.2%) and "*13*" (20.4%).

Are you using hormonal contraception?: A majority (**61.0%**) selected "*No*".
