HU Integrative Health Center University Employees Health Screening Report

This report provides a comprehensive analysis of survey data from 390 respondents out of 416 employees, representing a response rate of 93.75%. across **45** key topics. The following key findings have been identified:

Key Highlights (Selected Topics)

BMI: Opinions were split between "*Normal Weight*" (38.2%) and "*Over Weight*" (37.2%).

Do you have any of the following medical conditions?: The leading choice was "*No diagnosis*" with **41.3%**.

How many cigarettes do you smoke on an average day?: A majority (**89.5%**) selected "*I do not smoke* ".

How often do you eat vegetables per week?: The leading choice was "*Daily*" with **47.9%**.

How often do you eat fruits per week?: A majority (**51.0%**) selected "*Several times a week*".
